

## R.E.

Over the forthcoming weeks we will be exploring the unit of  
**'What do Christians learn from the creation story?'**

### **As a start...**

Spend some time in your garden or take a walk as part of your daily exercise to identify 'wow factors' in nature.

- Using a piece of card, find examples from nature to stick on it (can you fill it with all the colours of the rainbow or every shade of a particular colour, without destroying any living plants?)
- Close your eyes and listen to 'nature's symphony' — can you hear bees, birds, leaves rustling? Recreate as many of these sounds as possible using resources from the surrounding natural environment.
- Ensure you focus on what you find wonderful about the world in each activity. Take a digital image of something from nature that you feel has the 'wow factor'. Discuss choices and use images to create a display.

Have fun and be as creative as you like.
