Isaac Rooney's Prayer

Dear God
You made the world and created people and animals.
At this scary time, we pray and hope that the people with the virus get better.
Give strength to the people who have lost members of their families or friends.
We pray that the doctors and scientists from the NHS find a cure for the virus and everyone will get better.
We give thanks to everyone who is a key worker, caring for the poorly people, taking care of us and making sure we all have everything we need.
Amen
