## A Prayer for the World

Thank you, god, for keeping us safe throughout this pandemic.

We keep in our prayers all those who have died, ill, or are in isolation.

We thank in our prayers all the key workers

especially all the NHS workers, surgeons, doctors, nurses and carers who are all working so hard to look after us.

We also pray for all our loved ones who are unable to visit during this terrible pandemic.

We pray for when things get back to normal and when we are able to get outside to visit all the places we love.

STAY HOME, STAY SAFE AND PROTECT THE NHS

Amen
