

Dear God, please keep us safe in this scary and strange world. With the problems we face over our safety and health regarding the coronavirus, we look to you for strength to keep our family and loved ones safe and well. Please look after the people that can't spend time with their family's or loved ones and keep them safe. Please give comfort to the families that had lost people from the virus.

Help us lord, in your name we pray.

Amen
