

An Acrostic Poem by Sophie Dean

Title: My Nan is a Key Worker

My Nan is a key worker

You key workers are the best

Never give up on us

A perfect community

Never doubt what is about to happen

Incase of an emergency the NHS is there

Stay safe stay connected stay happy

Although times are rough we can get through them

Know that my Nan is taking care of people

Everything is better with someone else

You can rely on the government

We can do this together

Our community can get through this

Remember to be kind and helpful

Know were all with you

Every day the NHS are working for you

Remember the NHS is always here
