# The Werburgh's Word

## Upcoming Events

- Year 6 SATs Week
- Half Term

ST.WERBURGH'S

KINGSLEY

## **Vs. Book Battle**

**TITLE:** The Ickabog

**AUTHOR:** J.K Rowling

**SUMMARY:** This book is about a group of children who have discovered a hidden secret which the king's guards are hiding. They set out on an adventure to find this "murderous" Ickabog.

**LIKES:** I love this book because it explores a whimsical fairy-tale that keeps you on the edge of your seat. The descriptions of the food and landscape make it seem as if you are there.

**DISLIKES:** I did think it was quite long and it took a while to start, but it all pays off in the end.

**RATING:** 4/5 stars! Perfect for the whole family.

**SIMILAR BOOKS:** The Beast of Buckingham Palace, The Creakers and Danger Gang.

**By Evie K**

**TITLE:** Winnie's Midnight Dragon

**AUTHOR:** Valerie Thomas and Korky Paul

**SUMMARY:** This book is about a witch named Winnie who finds a little baby dragon in her house! The baby dragon is hard to control and starts to cause mayhem for Winnie and her cat Wilbur. Will they be able to control the dragon?

**LIKES:** I love this book because it is about a magical dragon who can't control his fire powers. The plot of the story is funny and will make you laugh out loud.

**DISLIKES:** I think the dragon could have been naughtier and I wish Winnie had kept it as a pet – I would!

**RATING:** 4 out of 5 stars

**SIMILAR BOOKS:** The Winnie the Witch Series, Zog

## Environmental Erin—Eco-craft

How to make a bird feeder out of a plastic bottle! - **By Erin C**

**Equipment you will need:** a plastic bottle with a bottle cap, two pencils or sticks, bird seed and a piece of string.

**Tools you will need:** Scissors and a pin.

### Instructions:

- 1) First, make two holes on the bottle with scissors, try and make them opposite each other and widen with a pin.
- 2) Carefully push the pencil or stick through the holes.
- 3) Make two more holes higher up on the bottle but this time make them at a 90 degree angle and widen with a pin.
- 4) At the very bottom of the bottle make two more holes for drainage.
- 5) Make a hole above the first stick/pencil you put in and make it so a bird can eat through the hole. Once you have done the first hole, make another hole above the second stick/pencil you put in.
- 6) Make two holes at the top of the bottle and attach a piece of string, then tie at the top.
- 7) Fill the bottle with the bird seed.
- 8) Lastly, hang the bird feeder up on a tree or somewhere suitable for a bird to get food from.

**Adult Assistance Needed!**

### Always Try...

We learn from our mistakes—a lesson is more important than winning!

***Be brave because you are a child of God.***

# Cheltenham Riding Star

On the 1st May, I went to Cheltenham Race Course for the first time on Summer, my pony who turns 18 in June. I have spent the last year and a half training for pony racing, but unfortunately because of Covid this is the first time I could actually race.

After an early start, we arrived at Cheltenham Race Course and had to attend a briefing before heading out to walk the course. I then had to go and be weighed with my saddle and be given a number cloth. I got number 8, which made me happy as my birthday is the 8th May! We then took Summer over to the pre-parade ring to be tacked up and walked around to show her off. We then moved over to the paddock where she continued to be walked before mounting.

At 12.15, we made our way to the start of the course ready to begin and have final safety tack checks. At 12.30 our race began. I had a plan but didn't put too much pressure on myself, other than to enjoy the experience.

I started in about 3rd position and held that until the bottom of the hill, but then asked Summer for a little more, and boy did she deliver! We ended up about 4 or 5 pony lengths ahead and WON! I am so proud of her!
